WORKSHOP	
<i>“Water Supply Reliability ”</i>	Mr. Malloy and Mr. Zampiello reviewed a presentation on the Southern California Foothill Communities Region Water Supply Reliability Program. Mr. Malloy presented some background information on the Raymond Basin Water Supply Reliability Project and the average ground water levels in the Raymond Basin. He indicated that the annual groundwater levels have declined over the last 30 years and that the basin has only natural recharge and no replenishment. Mr. Zampiello reviewed the program development and the features of the program. He indicated that this project would have an interconnection from the Metropolitan Water District Foothill Feeder to the San Gabriel Valley Municipal Water District’s pipeline in the San Dimas/La Verne area (Alostia Connection) and a 14 mile imported replenishment water pipeline from Azusa into the Raymond Basin eventually terminating in Pasadena.
